German federal states at a glance

Welcome to the Federal Republic of Germany. Due to its central location, Germany shares borders with a total of nine neighbouring European countries. The Federal Republic extends from the Alps in the south to the North and Baltic Seas.

As a federal system, the German Federal Republic consists of 16 federal states whose state governments partly take on their own state duties. Explore Germany on our interactive map of federal states. Find out about their capitals, populations and economic sectors.
