

## Saarland

---

From a traditional mining and steel location, the state of Saarland has evolved into a modern, international business region. Positioned in the southwest of Germany bordering France and Luxembourg, Saarland boasts beautiful landscapes and low costs of living. Short distances and friendly people who are committed to their communities – that’s what modern, vibrant Saarland is all about.

### Capital

Saarbrücken

### Important industries

Mechanical engineering

Healthcare

Automotive engineering

and supplying industry

Steel industry

Software development/IT

### Population

986.887

### Particularities

One third of the Saarland area is covered with forest. This makes it one of the most densely wooded federal states.
